The reciprocity treaty with leavy squalts. At 6 a. R. on the 3rd April, sighted the Islandard is now before the U. S. Senato at Washington. There is much opposition to the proposed treaty by our sugar refluers, yet all would yield their assent to its passage provided that an sugar over No. 13 Dutch standard would be allowed to nome in duty free. This ruling would deprive us of all cery grades, and give to the refluers a virtual monopoly of all Yellow Coffee Sugars other than that importd from other countries at high rates of duties, as will be seen by the emodule annexet, clipped from an Eastern paper. The Bahlim are people, who opposed the engar section of the rax bill, made the figures the basis of their argument against the engar section of the bill. The increased duty of 25 per cent. Issued on engar, melasses and metado, as per House bill, results as follows:

The Buildin adds: The refiners generally approve of the nes in duty, as it tends to shut out the high grades, thes giving them an advantage in the market. For example, proceed to Hilo in the all engage grained No 20, Dutch Standard, have to pay an increased duty of it is in, while No 7, Dutch Standard, used naively by the refiners, only pays a trifle ever 500 h bossed duty. The new law will not add materially to the une of the government, and probably was not intended compilish this object.

Their Majestles the King and Queen will proceed to Hilo in the steamer Kliauea about the

No intelligence had been received at San Prancisco of the schooner Varuus, up to March 16th-70 days since her departure from this port.

SUPREME COURT.—On the opening of the April term of the Court on Monday last, quite an animated discussion took place touching the absence of two of its Judges, Mesers. Allen and Harris, in which Messrs. Hartwell, Dole, Jones and Stanley participated.

A BAD BLUNDER. -The P. C. A., which sets itself up as a model of perfection, has a most unpardonable error, in announcing the death of Mr. Christian Bertlemann, who still lives on Kausi, and enjoys good health. What damages might be obtained, the country whence brought. A violation of this act in Court, for this false announcement, we don't know; but suits have, in other countries, been made for such inexcusable blunders."

SUDDEN DEATH .- Mr. James L. Lewis died suddenly at his residence at Walkiki, on Tuesday. He was born in Stonington Coun., in 1816, and was in his 59th year. He has been a resident of this port for over twenty years, and during that time has acquired by industry and frugality a handsome property. He was married to a Hawaiian, who survives him, and leaves a number of children.

The mail steamer Macgregor is now due, rovided she left San Francisco on her schedule day, Monday March 29. But, as the telegraph reported very stormy weather on the Atlantic in March, her leparture from San Francisco may have been delayed for the arrival of the London mails. Her last trip | ball. from San Francisco to this port was nine days and a

FINE WORK .- In the window of our Bookstore may be seen a large plan of Kabuku Banch, the property of Mr. J. L. Richardson. The survey was executed by Mr. Jas. W. Gay and the drafting by Mr. Henry Giles, book-keeper of the Honolulu Iron Works. It is one of the finest specimens of drufting we have ever seen, through perhaps not so claborate in its details as a survey of the Kohala Ranch, executed by the same gentleman, for Mr. T. H. Davies. Such skillful artists would be a credit to larger cities than Honolulu, and we are proud to own them as residents.

PROMPT PAYMENT.-In September last, the sugar mill of Mr. R. Hinds of Kohala was destroyed by fire, under peculiar circumstances. The building had just been completed, the machinery set up and everything ready for the cane, which was nearly ripe and ready to cut. On the night after the building was finished a fire broke out and destroyed it. The | sal respect which all parties had entertained for him fire is believed to have been accidental, and probably caught from the native's pipe, who swept out Buffet should enter the Ministry. Duke d'Audifret the building, and was the last to leave the premises. Mr. Davies, the agent of the Mill, was then in London, and had written out instructions to have the property insured. His letter arrived on the morning of Monday the 21st of September, and the Insurance was that day effected. About midnight of the same day the property was destroyed, though news of the disaster only reached Honolniu on the Saturday or Sunday following. When all the facts were laid before the directors of the Northern Assurance Company, in which the insurance was made, the whole amount of the loss caused by the fire (assessed by three disinterested persons at \$7.266,) was promptly perty insured and claimed a general average, which archall, C.S. The band of the Pensacola gave an open-air very pleasant series of popular entertainments, at the Hawallan Hotel.

Prof. Harkness, who had charge of the Transit of Venus observations in Australia for the American Government, arrived in the steamer Mikado, homeward bound, and will remain here about one month, visiting the volcano during his stay.

COLONIAL POSTAL ARRANGEMENTS .- By the mail Burns, Postmaster-General of New South Wales, bas ments, respecting the mail service. They propose worked with great satisfaction. to make the Sucz and the San Francisco services alternate as early as possible. Victoria will give every facility in her power for the rapid transmission of the Suez malls from Melbourne to Sydney, overland or coustwise, as New South Wales may choose, and corresponding facilities are to be afforded to Melbourne by Sydney. The Postmasters have further agreed to establish a telegraphic money order system between the two colonies; and to approve of arrangements for signalling vessels at Gabo Island.

DEATH OF A HAWAHAN STUDENT.-Mr. Edward Fletcher Bishop, son of Rev. S. R. Bishop, died at Amberst college, Mass. on Saturday February 27. He was born at these islands, and went to the United States three years since to complete his education, and on entering college immediately took a high rank for scholarship in every branch, but especially in notany and chemistry, which appear to have been his favorite studies. By the last mail letters reported him seriously sick, and his disease terminated fatally on the 27th of February. We ellp the following notice of his death from the Eoston Journal of March 4:

Edward F. Bishop, a member of the junior class at Amherst, died on Saturday morning. His home was in the Sandwich Islands, and none of his family are in this country. Prominent in the class and of a noble disposition, he was highly esteemed by all who knew him, and his death casts a gloom over the entire community.

### Late Foreign News.

By the schooner Gen. Harney, we have San Francisco dates to March 16. From the files at hand, we glean the following summary:

NEW YORK, March 13th .- All the indications at the East, point to a cheerful spring with fine business. There is a growing feeling that the people have recovered from the name prostration and that the longexpected revival in all branches of productive industry is nearly at hand.

The fire at Port-au-Prince, Hayti, February 11th, was more disastrous than the telegraph announced. Four hundred houses were destroyed, and the loss to property is estimated at \$2,000,000. J. B. Hepburn,

a merchant, perished in the flames. New York, March 10th .- The Board of Trade today adopted unanimously a resolution declaring that tariff laws should be framed with a view to raising the necessary revenue from the least possible number of articles; that as far as possible the necessary revenne should be raised from articles that are not manufactured or produced in the United States; that no duties should be imposed on raw material which enters largely into manufactures ; and that all duties should be specific, without regard to classificationbut simple and direct.

Matters at Washington.

Washington, March 9th .- Booth made his advent in the Senate to-day, where he was quite generally introduced by Sargent and Hager. He attracted much notice both on the floor and in the galleries. He declares himself opposed to a Hawalian treaty on the ground that it would injure California refiners without cheapening the price of sugar. The friends of the reciprocity treaty claim that while it would not cheapen crushed sugar, as no provision is made for its free admission, yet it would certainly lessen the price of brown sugar.

March 10th .- Senator Booth says he will not go in caucus with either party, but will, like ex-President Johnson of Tennessee, act independently of any partisan determination.

The anti-coolie bill, passed by Congress, prehibits the United States Consuls from granting permits to which gave the ground a good sonking in this American vessels to transport any immigrants from Oriential countries who have entered into a contract for immoral purposes, and provides penalties not exceeding \$5,000 fine or five years' imprisonment against any person employing or bolding women under contract for prostitution, and also heavy penalties against bringing into the United States any coolies without their voluntary consent, or contracting to supply in voluntary coolie labor, or endeavoring to hold coolies under such contracts, and all such contracts are to be declared void. The bill also prohibits the landing in the united States of aliens undergoing sentence for non-political crimes, or whose sentence has been remitted on condition of their emigration, and of women imported for purposes of prostitution; and provides that all vessels shall be subject to inspection to ascertain whether any such persons are on board. Bonds may, however, be given by the masters or owners of any vessel to permit the landing of such persons, con ditioned upon his or her return within six months to will subject the vessel to forfeiture.

European. John Mitchell was again elected to Parliament, on

the 7th March, by a majority of 2868 out of 3869. CORK, March 13th .- There was considerable disorder in Tipperary last night because of the refusal of some residents to illuminate their dwellings in honor of the second election of John Mitchel to Parliament Several houses which were not illuminated were attacked by the mob and sacked. The town is quiet

Losnon, March 10th .- A heavy gale yesterday, and disasters to shipping on the British and Irish coasts, are reported. Several lives were lost.
